

Virtigo Pictures

Virtual Production Stage & Services

Virtigo Pictures is a Lone Star Emmy® Award-winning virtual production studio based in South Austin.

We provide directors, agencies, and creative production houses with a 50' x 12' high-resolution LED volume stage—empowering you to shoot remote, high-cost, or multi-site locations in a single day

Virtual Production Matters

40%

Industry Utilization

40% of TV and film professionals are already using Virtual Production technology.

25%

Fewer Workdays

Weather control and reduced travel needs have cut production workdays by 20–25%.

30%

Production Timelines

Studios are reporting up to a 30% reduction in overall production timelines.

Meet Your Dedicated Virtual Production Team

Since its inception, Virtigo has pioneered virtual production technologies and use cases in the Texas media and entertainment industry, leading the trend amongst other virtual production studios.

- Virtigo regularly updates its software and skill set and suggests the most suitable options for each customer.
- Virtigo prioritizes positive client interactions and values relationships.
- Virtigo treats all employees and contractors with fairness and respect.

Our Collaborative Virtual Production Process

1

Assess

Thoroughly explore your needs, uniqueness, and creative direction.

2

Support

Provide essential Virtual Production crew and line production as needed.

3

Create

Develop 3D & 2D scenes, motion graphics, plate capture, splats, and custom solutions.

4

Production

Deliver a positive and professionally executed virtual production experience.

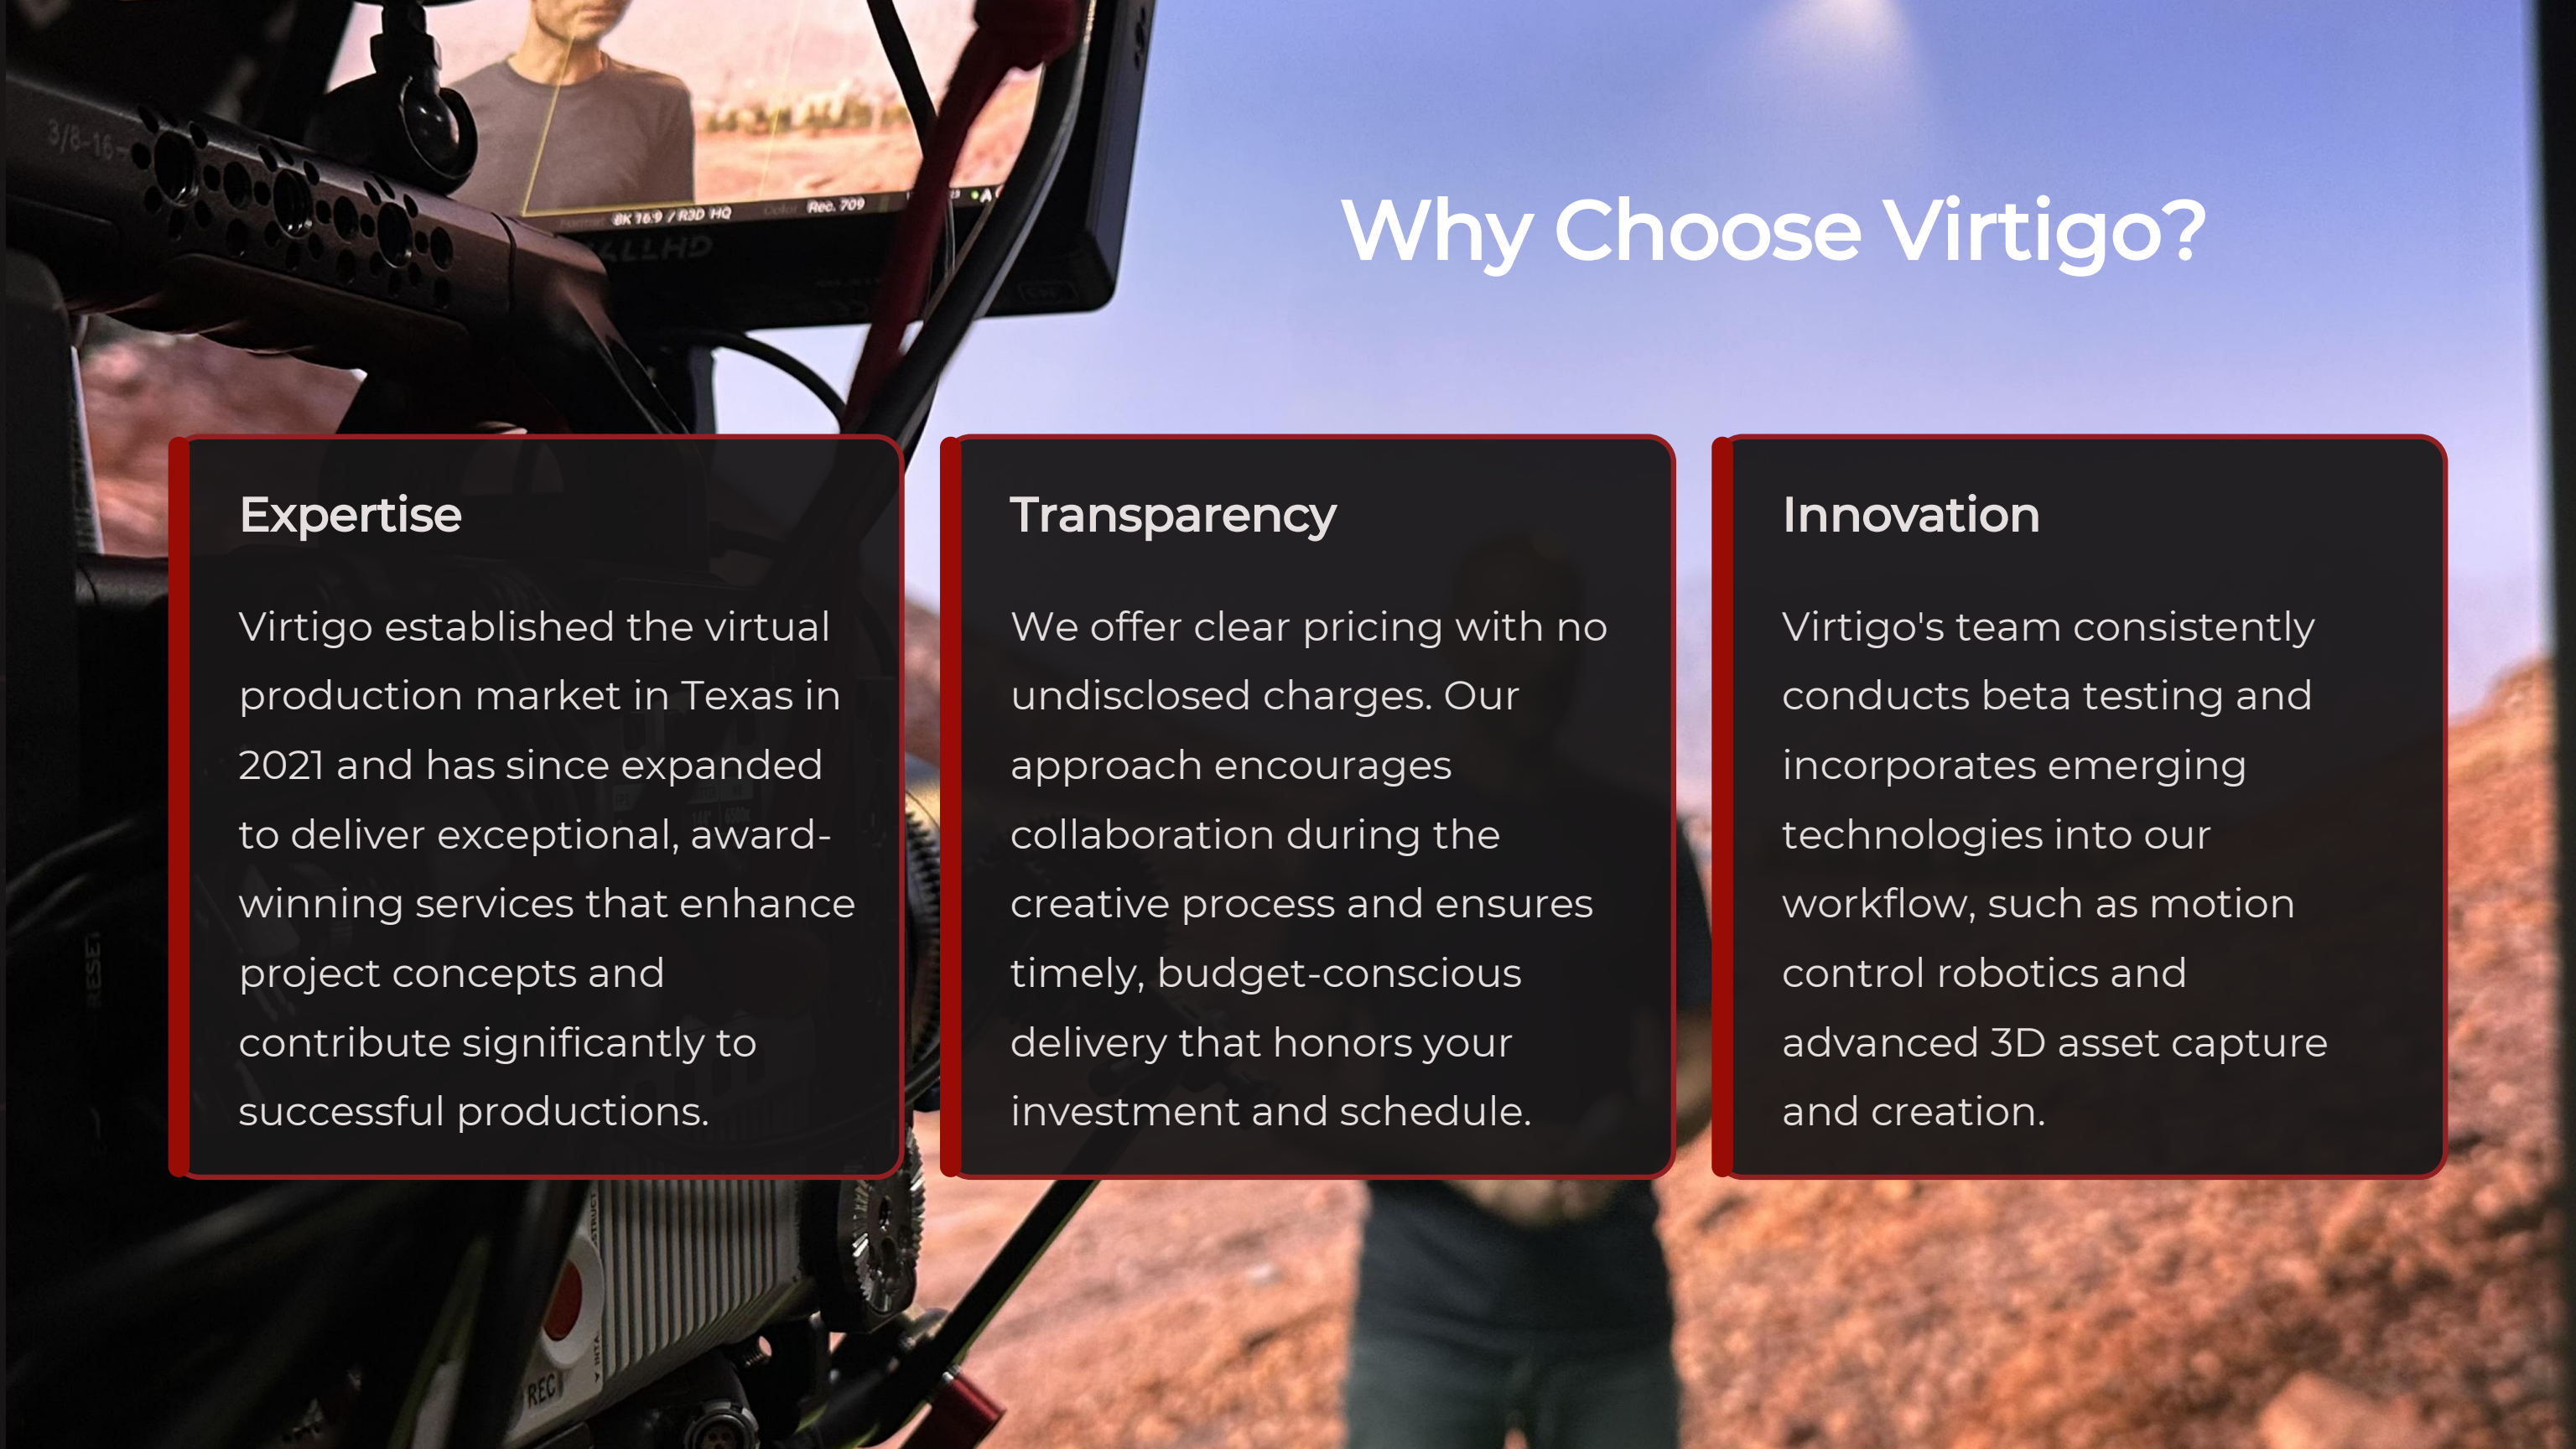

About Virtigo Pictures

Notable Clientele

Virtigo Pictures, formerly Co-Production House, launched in 2021 as Texas's first LED volume stage for commercial and film production, combining traditional filmmaking with advanced technology.

Virtigo has since expanded to deliver exceptional, Lone Star Emmy award-winning services that enhance project concepts and contribute significantly to successful productions. Our approach encourages collaboration during the creative process and ensures timely, budget-conscious delivery that honors your investment and schedule.

Why Choose Virtigo?

Expertise

Virtigo established the virtual production market in Texas in 2021 and has since expanded to deliver exceptional, award-winning services that enhance project concepts and contribute significantly to successful productions.

Transparency

We offer clear pricing with no undisclosed charges. Our approach encourages collaboration during the creative process and ensures timely, budget-conscious delivery that honors your investment and schedule.

Innovation

Virtigo's team consistently conducts beta testing and incorporates emerging technologies into our workflow, such as motion control robotics and advanced 3D asset capture and creation.

Virtual Production Rates:

Prep Day (2D) - \$6,000 (recommended)

Production Day (2D) - \$6,000

Prep Day (3D) - \$16,500 (required)

Production Day (3D) - \$20,000

(3D includes Cinema Robot for Motion Control)

Content Creation – Starts at \$2,000

Our rates include the studio space, Volume wall hardware, in-house pre-production, and experienced virtual production crew.

50'x12' LED wall | 2.6 pitch

Curved on each side. Customizable builds. Lighting grid overhead. Green room spaces.
